Quality, Experience...Value

Fastrack Training and Safety Ltd is a small, independent training company, who were approved by Railtrack to carry out Track Safety Training over fifteen years ago.

Fastrack Training & Safety had also spent several years providing safety service and training to the Construction Industry.

In 2000 Fastrack Training & Safety merged their rail training side with Amtrain (Midlands) Ltd, who were formerly West Coast Training.

To adapt to the changing rail environment Fastrack Training & Safety decided to re-established its own training and assessing licence - RTAS0296 in 2006

Aims & Objectives....

Our aim, with increasing staff, resources, experiences and differing qualifications will continue to enable us to make further advances in Track Safety Training.

Our objective is to maintain and increase its service to Network Rail, it's contractors and the Construction Industry, by providing the necessary safety knowledge to their personnel, with greater flexibility and at a competitive price, with the sole aim of ensuring a safer working environment for all.

Trainers.....

SEAN O'DONNELL

Sean has over 25 years experience within both Construction and the Rail Industries of which 22 has been spent in a Health, Safety and Training role. He spent that time devising new safe systems of work, policies, training courses and then applying them in a practical manner

GRAHAM BOULTON

Graham has many years experience within the Rail Industry and has been a registered trainer since prior to the inception of the Sentinel Scheme. Graham carries out training up to PICOP level and has been approved as a Machine and Crane Controller trainer and assessor

PAUL YEOMANS

Paul has been involved with adult teaching in engineering for many years. He moved into the rail industry over 10 years ago. He progressed through the qualifications and finally became a registered trainer in January 2003. He has since become one of the Country's top Machine and Crane Controller trainers and assessors.

Why Fastrack Training & Safety?

Expert Training and Safety Consultants within their field of operations. We can call upon many consultants to cover all possible requirements and needs for our clients.

Rapid response and nationwide coverage. "In-House" services as well as providing venues in which we can carry out standard courses or ones adapted to suit your specific needs and requirements.

Flexibility, resourcefulness and adaptability enable us to provide courses suited to clients' specific needs, offered at times to suit our clients. No surcharge for weekend courses thus minimising disruption to your workforce or production.

Ability to assess and understand client's needs and offer a quality, rapid and reliable solution at very competitive rates.

Excellent administrative department. Thus ensuring speedy notifications etc. so that client receives the best possible return time available.

Management of your training and assessing requirements. Advice on staff's qualifications expiry or assessments required, along with various dates for these to be carried out prior to deadlines, thus ensuring a competent and certificated workforce at all times.

PICOP Recertification (1day)	6	110.00

All prices are exclusive of successful candidates' Track Safety Cards (£15.01 each) and VAT currently at 20%.

Venues...

Courses can either be held at our venues in Birmingham or Brownhills, or at your premises. £0.40 per mile travel expenses will be applied where trainers have to travel.

Medicals and Drug & Alcohol tests can be organised if required at a cost of £140.00 per person (for both), plus VAT currently at 20%.

The medicals must be carried out at least 1 week before the course commencement, so that attending candidates have in their possession both a valid medical and drug & alcohol certificate at course start. 2 weeks is recommended to allow for any further analysis that may be required.

For other courses or services, please contact us, so we can give you our best price.

Discounts

For Companies interested in arranging a Service Level Agreement, discounted rates can be negotiated. Contact us to arrange a meeting to discuss this option.
